CONTACT REPORT

DATE: 28 Jan 1954, 0900

PLACE: []

PERSONS PRESENT: Cols. King, [] Messrs. []

COVER USED: None

DISCUSSION:

1. [] reported on his meeting of Calligeris at the airport and the subsequent Calligeris-[] meeting. He also reported that the take on the tape is OK and the first tape should be available about 1100. The tape will be played on the recorder which is to be brought into the Colonel's office for this purpose.

2. [] reported on his trip to Hqs.

A. Radio material was piling up in Washington in []'s office as he did not know where to send it. This has been corrected and the material should start coming in now.

B. State Dept. material will go to Esterline and then to Lincoln. No backlog of material from State for Lincoln was located.

C. Radio tapes of Guatemala programs were requested with a view to plagiarizing them in the future and dubbing in of voices to suit our purposes. [] raised the question of loss of fidelity in tapes not made in the site where program originated.

D. Procurement of So. American newspaper halted in Hqs. Can be done otherwise.

E. Arrangements were made so that clippings made by Hqs. can be collected and mailed daily directly to Lincoln. This service has been most irregular in the past.

F. Manuals - This question was discussed with Mr. [] who was under the impression that Manuals had been provided Station Lincoln. Since this is not the case, [] was so informed and requested to furnish Manuals.

3. Col. King informed [] that he is authorized to maintain his fund at [] and whenever the fund falls below that sum he should requisition more. Col. King wants to know what funds are needed in field stations, stating that he preferred to be on the liberal side so far as funds are concerned for the field stations.
